Forecast for Saturday 30 Oct 2021

Weather: Area of occasionally heavy rain soon spreading to all overnight. Overcast morning with rain, heavy at times, perhaps with some hail and thunder mixed in. This clears northwards from around mid-day leaving sunshine and only a few well scattered and light showers for all from mid-afternoon. Largely dry and clear for the evening.

Chance of cloud free mountain/hill tops above 800m: 10% at first becoming 95% from early afternoon.

Visibility: Moderate or poor early rain and briefly in later showers, also very poor in hill fog with bases extensive from 450m in early rain, infrequently to 600m in later showers.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Hazardous conditions in early rain, hill fog and risk of hail, thunder.

Forecast for Sunday 31 Oct 2021

Weather: Continuing with the mix of rain or showers. This time the longer periods of occasionally heavy rain should clear sooner, around late morning. Thereafter some limited brighter spells between quite frequent showers, with some turning heavy, bringing the risk of hail and thunder.

Maximum wind: South to Southeast beginning 35-40mph with gusts to 55mph across most exposed ridges and summits, easing a touch from late morning.

Chance of cloud free mountain/hill tops above 800m: 10% at first becoming 60% from late morning for any given time, but little chance of prolonged clear conditions due to the showery nature of the flow.

Visibility: Moderate or poor in early rain and occasionally in later showers, also very poor in hill fog with bases extensive in early rain, sporadically in later showers from 450m.

Temperature: **Valleys:** Plus 6 Celsius increasing 13 Celsius during the afternoon
At 800m: Plus 3 Celsius
Freezing level: Above all summits
